

WESTBRIDGE RENEWABLE ENERGY CORP.

CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian dollars)

FOR THE YEAR ENDED NOVEMBER 30, 2024

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Westbridge Renewable Energy Corp.

Opinion

We have audited the accompanying consolidated financial statements of Westbridge Renewable Energy Corp. (the "Company"), which comprise the consolidated statements of financial position as at November 30, 2024 and 2023 and the consolidated statements of operations and comprehensive income and loss, changes in equity, and cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at November 30, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our auditor's report.

Assessment of Impairment Indicators of Development Projects

As described in Note 9 to the consolidated financial statements, the carrying amount of the Company's Development Projects was \$15,500,574 as of November 30, 2024. As more fully described in Notes 3 and 4 to the consolidated financial statements, management assesses Development Projects for indicators of impairment at each reporting period.

The principal considerations for our determination that the assessment of impairment indicators of the Development Projects is a key audit matter are that there was judgment made by management when assessing whether there were indicators of impairment for the Development Projects. This in turn led to a high degree of auditor judgment, subjectivity, and effort in performing procedures to evaluate audit evidence relating to the judgments made by management in their assessment of indicators of impairment.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. Our audit procedures included, among others:

- Evaluating management's assessment of impairment indicators, including intent.
- Assessing internal and external factors for impairment indicators, including market conditions, regulatory changes, and operational performance trends.
- Reviewing and summarizing the sale agreements in order to understand the key terms and conditions of the completed and proposed sales.
- Verifying the consideration received was consistent with supporting documentation and in excess of carrying amount.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Stephen Hawkshaw.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

1. CORPORATE INFORMATION

The Company is incorporated under the laws of British Columbia and its principal business activity is the acquisition and development of solar photovoltaic projects. The Company was incorporated on February 9, 1956. The Company's shares are traded on the TSX Venture Exchange (the "TSXV") under the ticker symbol "WEB."

On June 1, 2023, the Company announced that it had entered into definitive agreements to sell five of its Canadian projects, by way of share purchase transactions for all of the issued and outstanding shares of the following subsidiaries of Westbridge: Georgetown Solar Inc. ("Georgetown"), Sunnynook Solar Energy Inc. ("Sunnynook"), Dolcy Solar Inc. ("Dolcy"), Eastervale Solar Inc. ("Eastervale"), and Red Willow Solar Inc. ("Red Willow"), (each an "SPV" and collectively, the "SPVs") to Metka-EGN Ltd. ("Metka"), a subsidiary of MYTILINEOS Energy & Metals. Closing of the purchase and sale of each SPV is conditional upon, among other things: obtaining approval of the purchase and sale by the TSX Venture Exchange ("TSXV") and obtaining regulatory approvals from the Alberta Utilities Commission ("AUC").

In the year ended November 30, 2024, the Company had completed the sale of Georgetown and Sunnynook to Metka (Note 16).

The address of the Company's corporate office and principal place of business is Suite 615 - 800 West Pender Street, Vancouver, British Columbia, V6C 2V6.

2. BASIS OF OPERATIONS AND GOING CONCERN

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), effective for the Company's reporting year ended November 30, 2024.

These consolidated financial statements were authorized for issue on March 27, 2025, by the board of directors.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

2. BASIS OF OPERATIONS AND GOING CONCERN (cont'd...)

(b) Basis of presentation and measurement

These consolidated financial statements have been prepared on the accruals basis (except for cash flow information), using the historical cost convention (except where specific items are held at fair value) and are presented in Canadian dollars.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

(c) Going concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its current obligations and continue its operations over the next year.

At November 30, 2024, the Company had achieved profitability and had working capital of \$17,833,839. On December 13, 2023, the Company completed the sale of its subsidiary Georgetown to Metka and received cash of \$39,044,014 net of certain deductions and debt payments, realizing a gain on disposal of \$41,586,000. On November 1, 2024, the Company completed the sale of its subsidiary Sunnynook to Metka and received cash of \$23,006,854 net of certain deductions, debt payments and amounts paid to non-controlling interests, realizing a gain of \$32,280,392. Accordingly, directors are of the opinion that that the Company has the requisite financial resources to continue its operations for the next twelve months.

WESTBRIDGE RENEWABLE ENERGY CORP.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

- Westbridge Energy (U.S.) Corp, a company incorporated in the USA;
- Westbridge Energy UK Limited, a company incorporated in England and Wales;
- Westbridge Renewable Energy Asset Management Limited, a company incorporated in England and Wales (Note 15);
- Westbridge Renewable Energy Holdco Corp., a company incorporated in Alberta, Canada;
- Willard Renewable LLC, a company incorporated in the USA (Note 15); and
- Willard Solar Holdings Inc., a company incorporated in the USA (Note 15).

1 - Disposed of in the year ended November 30, 2024

2 - 70% ownership

3 - Incorporated in the year ended November 30, 2024

Subsidiaries are included from the date control was acquired in each. Control exists when the Company possesses power over an investee, has exposure to variable returns from the investee and has the ability to use its power over the investee to affect its returns. All significant intercompany transactions and balances have been eliminated on consolidation.

(b) Impairment of long-lived assets

At the end of each reporting period, the Company's assets are reviewed to determine whether there is any indication that those assets may be impaired. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

(c) Income taxes

Income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive loss/income.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting not taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

(d) Share based compensation

The Company uses the fair value-based method for share based compensation and therefore all awards to employees will be recorded at fair value on the date of the grant and expensed over the period of vesting. The Company uses the Black-Scholes option pricing model to estimate the fair value of each share option at the date of grant. Any consideration paid by the option holders to purchase shares is credited to share capital.

Share based compensation arrangements in which the Company receives goods or services as consideration for its own equity instruments, or when share options are granted to non-employees, are accounted for as equity settled share based payment transactions and measured at the fair value of goods or services received. If the fair value of the goods or services received cannot be estimated reliably, the share based payment transaction is measured at the fair value of the equity instruments granted.

Restricted Share Units ("RSUs") are equity settled transactions whereby the compensation expense is measured based on the fair value at the grant date and recognized over the related restriction period with a corresponding increase in contributed surplus. RSUs are settled in newly issued common shares of the Company, cash, or a combination of both as determined by the board upon grant.

(e) Share capital

Proceeds from the exercise of share options and warrants are recorded as share capital at the amount for which the share option and warrant enabled the holder to purchase shares of the Company. Share capital issued for non-monetary consideration is recorded at fair value based on the quoted market price on the date of issuance. Share issue costs, which include commissions and professional and regulatory fees are charged directly to share capital.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

(f) Basic and diluted earnings (loss) per share

The Company computes the dilutive effect of options, warrants and similar instruments. The dilutive effect on earnings (loss) per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the year. This would not occur if the impact would be anti-dilutive.

Basic earnings (loss) per share is calculated using the weighted-average number of common shares outstanding during the year.

(g) Cash and cash equivalents

Cash includes cash on hand, and other short-term highly liquid investments.

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate in effect at the date of the statement of financial position. Non-monetary assets and liabilities, expenses and other income arising from foreign currency transactions are translated at the exchange rate in effect at the date of the transaction. Exchange gains or losses in the parent company arising from the translation are included in profit or loss for the year. Exchange gains and losses in subsidiaries with other functional currencies are recognized in other comprehensive loss and accumulate as a separate component of equity.

(i) Financial instruments

i) Classification

The Company classifies its financial instruments in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The Company determines the classification of financial assets at initial recognition. The classification of financial instruments is driven by the Company's business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

Financial assets/liabilities	Classification
Cash and cash equivalents	Amortized cost
Accounts receivable	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Lease liabilities	Amortized cost
Debt	Amortized cost

ii) Measurement

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Derivative instruments, including embedded derivatives, are recorded at fair value on initial recognition and at each subsequent reporting period. Any gains or losses arising from changes in fair value on derivatives are recorded in profit and loss.

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the consolidated statements of profit or loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the consolidated statements of profit or loss in the period in which they arise.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

(i) Financial instruments (cont'd...)

iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit losses.

The Company shall recognize in the consolidated statements of profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

iv) Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity. Gains and losses on derecognition are generally recognized in the consolidated statements of profit or loss.

v) Derivatives

The Company has entered into foreign exchange forward contracts. These contracts are treated as derivative financial instruments and marked to market at each reporting period on the consolidated statement of financial position with changes in fair value recognized in unrealized foreign exchange in the statement of profit or loss.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

(j) Property, plant and equipment – Development projects

An asset arising from the development of a project is recognized if, and only if, all of the following conditions have been demonstrated:

- It is probably that future economic benefits associated with the item will flow to the Company; and
- The cost of the item can be measured reliably.

The amount initially recognized for development project assets is the sum of the expenditure incurred from the date when the development project first meets the recognition criteria listed above. Where no asset can be recognized, development expenditure is recognized in profit or loss in the period in which it is incurred.

Development assets are depreciated over the useful lives of the resulting asset, from the date of first export of electricity.

Expenditure on research for new development projects is recognized as an expense in the period in which it is incurred.

(k) Leases

The Company assesses whether a contract is or contains a lease at the inception of the contract. The Company recognises a right of use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For the leases, the Company recognises the lease payments on a straight-line bases over the term of the lease, unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

(k) Leases (cont'd...)

The lease liability is presented as a separate line in the consolidated statement of financial position.

Right of use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right of use asset reflects that the Company expects to exercise a purchase option, the related right of use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right of use assets are presented as a separate line in the consolidated statement of financial position.

The Company applies IAS 36 – Impairment of Assets to determine whether a right of use asset is impaired and accounts for any identified impairment loss as described in Note 3(b).

(l) New accounting policies

Accounting standards issued but not yet effective

The following new standards, amendments to standards and interpretations have been issued but are not effective during the year ended November 30, 2024.

Lack of Exchangeability (Amendments to IAS 21) – These amendments are designed to help an entity determine whether a currency is exchangeable into another currency and requirements the entity would apply when it is not. They are effective for annual periods beginning on or after 1 January 2025 (early adoption is available).

Amendments to the classification and measurement of financial instruments (Amendments to IFRS 9 and IFRS 7) – These amendments clarify the requirements related to the date of recognition and derecognition of financial assets and liabilities, with an exception for derecognition of financial liabilities settled via an electronic transfer. They also clarify the requirements for assessing contractual cash flow characteristics of financial assets and characteristic of non-recourse loans and contractually linked agreements. They are effective for annual periods beginning on or after 1 January 2026 (early adoption is available only for amendments related to the classification of financial assets and the related disclosures).

IFRS 18 Presentation and disclosure in financial statements (Replaces IAS 1 Presentation of Financial statements) – This standard sets out significant new requirements for how financial statements are presented, with particular focus on the statement of comprehensive income, including requirements for mandatory sub-totals to be presented, aggregation and disaggregation of information, as well as disclosure related to management-defined performance measures. This standard also results in narrow scope changes to the statement of cash flows. They are effective for annual periods beginning on or after 1 January 2027.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

3. SUMMARY OF MATERIAL ACCOUNTING POLICIES (cont'd...)

(l) New accounting policies (cont'd...)

IFRS 19 Subsidiaries without public accountability disclosures – This standard permits eligible subsidiaries to provide reduced disclosures while applying the recognition, measurement and presentation requirements in IFRS accounting standards. It allows an entity eligibility to apply IFRS 19 in its consolidated separate or individual financial statements if it meets the eligibility criteria at the end of the reporting period, they are effective for annual periods beginning on or after 1 January 2027.

The Company anticipates that these amendments will not have a material impact on the results of operations and financial position of the Company, other than IFRS 18, which is under review by the Company.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the consolidated financial statements are discussed below:

(a) Property, plant and equipment – development projects

Development expenditure encompasses investment in new solar projects for costs including but not limited to:

- Consulting and planning services for regulatory and permitting activities;
- Design works;
- Environmental studies;
- Interconnection engineering services;
- Grid connection costs; and
- Planning fees.

Research and site selection costs are expensed as incurred. The costs of the development are capitalized as assets, where the investment they represent has demonstrable value and the technical and commercial feasibility is assured. Costs eligible for capitalization must be incremental, clearly identified and directly attributable to a particular project. The resulting assets are depreciated over their estimated useful lives. Impairment reviews are carried out at least annually where indicators of impairment are identified. Judgment is required in the assessment of the potential value of a development project, the identification of costs eligible for capitalization and the selection of appropriate asset lives.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (cont'd...)

(b) Income taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters. However, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of tax losses also depends on the ability of the Company to satisfy certain tests at the time the losses are recouped.

(c) Share based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The Company determines fair value for share options and warrants using the Black-Scholes model. This model requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield. The Company determines the fair value of RSUs using published market prices.

When the value of goods or services received in exchange for the share based payment cannot be reliably estimated, the fair value is measured by use of the Black-Scholes model. The expected life used in the model is adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioral considerations.

(d) Classification of derivative financial assets and liabilities

The Company holds forward exchange contracts to manage the risk of foreign denominated debt. Management has assessed these arrangements under the scope of IFRS 9 as to whether or not the arrangements constitute a financial instrument. As these obligations have embedded derivatives that would otherwise need to be accounted for separately as FVTPL, management has elected these arrangements to be financial assets or liabilities at FVTPL with initial and subsequent measurement at fair value as permitted under IFRS 9, with unrealized gains and losses reflected through foreign exchange the statement of profit or loss.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (cont'd...)

(e) Assets and liabilities classified as held for sale

The Company reclassifies assets as held for sale if their carrying value will be recovered principally through a sale transaction rather than through continuing use. Where groups of assets and liabilities directly associated with those assets are to have their value realized primarily through a sale transaction, both assets and liabilities are classified as held for sale.

For assets or groups of assets to be classified as held for sale, it must be demonstrated that the assets are available for immediate sale in their current state, that the sale is highly probable, and that the sale can be completed within 12 months.

(f) Impairment of development projects

The Company evaluates whether the carrying value of Development Projects is recoverable on at least a quarterly basis to determine whether or not impairment of these assets has occurred and whether impairments of the value of these assets are required. Similarly, the Company evaluates the carrying value of Development Projects whenever circumstances arise that could indicate impairment or reversal of impairment, and at each reporting date as well as upon transfer to assets held for sale. These impairment tests require the determination of recoverable amounts which include assumptions regarding potential fair market values by comparison to comparable assets in the market or assessment of fair value less costs to sell.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

5. RELATED PARTY TRANSACTIONS

The following amount due to related parties are included in accounts payable, and accrued liabilities:

	<u>November 30, 2024</u>	<u>November 30, 2023</u>
Officers, directors or companies controlled by directors of the Company	\$ 2,624,764	\$ 17,541

Amounts owed to related parties are non-interest bearing, unsecured and have no specific terms of repayment.

The Company incurred the following transactions with key management personnel comprised of officers, directors or companies controlled by directors:

	For the year ended November 30,	
	2024	2023
Office and miscellaneous	\$ 481,104	\$ 320,963
Consulting	-	-
Share based payment expense	316,260	981,382
Management bonus	8,304,209	-
	<u>\$ 9,101,573</u>	<u>\$ 1,302,345</u>

On March 21, 2023, the Company granted 3,335,000 share options with a weighted average exercise price of \$0.75 for a period of 5 years. 1,680,000 of these share options were issued to Directors and Officers of the Company, for which a total share-based payment charge of \$256,014 (2023: \$647,878) was recorded in the year to November 30, 2024.

On March 21, 2023, the Company granted 525,000 RSUs to Directors and Officers of the Company, which vest over twelve months. In the year November 30, 2024, a share based payment charge of \$60,246 (2023: \$333,504) was recorded.

On November 14, 2023, the Company acquired Willard Solar Holdings Inc and its subsidiary Willard Renewable LLC from VDA Solar Limited, a related party due to a common director, for \$197,809. No further consideration is payable on this transaction (Note 15).

On November 30, 2023, the Company acquired Westbridge Renewable Energy Asset Management Limited from Horus Assets Selection Limited, a related party due to a common director, for a nominal fee. Acquisition expenses of \$75,999 were recorded as a result of this (Note 15).

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

6. SHARE CAPITAL AND CONTRIBUTED SURPLUS

(a) Authorized: Unlimited number of common shares without par value.

(b) Share options

In 2021, the share option plan was converted into a fixed plan under which an aggregate total of 9,906,779 shares may be issued (inclusive of the 4,825,000 options outstanding at November 30, 2024, as described below). Exercise prices, vesting conditions and expiry dates are set by the Company's Board of Directors pursuant to the Company's incentive plan.

The exercise price of each option is based on the market price of the Company's common shares at the date of the grant less an applicable discount. The options can be granted for a maximum term of 10 years and vest at the discretion of the Board of Directors.

On March 21, 2023, the Company granted 3,335,000 share options with a weighted average exercise price of \$0.75 for a period of 5 years, of which 1,111,667 vested in the period to November 30, 2023. The fair value of the share-based compensation expense totalling \$1,890,000 or \$0.57 per option over the vesting period was estimated using the Black-Scholes option pricing method assuming a weighted average risk-free rate of 3.17%, a weighted average expected volatility of 99.71%, an expected dividend and forfeiture rate of nil, and an expected life of 5 years.

On May 27, 2024, the Company granted 100,000 share options with a weighted average exercise price of \$1.00 for a period of 3 years, of which 50,000 had vested as at November 30, 2024. The fair value of the share-based compensation expense totalling \$55,580 or \$0.55 per option over the vesting period was estimated using the Black-Scholes option pricing method assuming a weighted average risk free rate of 4.00%, a weighted average volatility of 83.02%, an expected dividend and forfeiture rate of nil, and an expected life of 3 years.

Share option transactions are summarized as follows:

	Number	Weighted Average Exercise Price
Outstanding, November 30, 2022	6,150,000	\$ 0.30
Issued	3,335,000	0.75
Exercised	(2,296,666)	0.31
Outstanding, November 30, 2023	7,188,334	\$ 0.51
Issued	100,000	1.00
Exercised	(2,430,000)	0.34
Lapsed	(33,334)	0.75
Outstanding, November 30, 2024	4,825,000	\$ 0.60
Number currently exercisable	3,707,779	\$ 0.55

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

6. SHARE CAPITAL AND CONTRIBUTED SURPLUS (cont'd...)

(b) Share options (cont'd...)

Share options outstanding at November 30, 2024, are:

Number	Exercise Price	Expiry Date
1,650,000	\$ 0.30	November 2, 2026
3,075,000	\$ 0.75	March 20, 2028
100,000	\$ 1.00	May 27, 2027
4,825,000		

(c) Share purchase warrants

Share purchase warrant transactions are summarized as follows:

	Number	Weighted Average Exercise Price
Outstanding, November 30, 2022	100,000	\$ 0.20
Exercised	(100,000)	0.20
Outstanding, November 30, 2023	-	-
Exercised	-	-
Outstanding, November 30, 2024	-	\$ -

No share purchase warrants are outstanding at November 30, 2024 and 2023.

(d) Restricted Share Units ("RSUs")

On March 21, 2023, the Company granted 658,400 RSUs with a grant price of \$0.75 which vest over twelve months. A share based payment charge of \$493,800 will be recorded over the vesting period, of which \$77,471 (2023: \$416,330) was recorded during the year ended November 30, 2024. Awards, expiry date, settlement options and vesting terms are set by the Company's Board of Directors pursuant to the Company's incentive plan. As at November 30, 2024, all RSU's have been exercised.

(e) Private Placements

No private placements have taken place during the years ended November 30, 2024 and 2023.

As a result of the above share option and RSU grants, the Company recognized \$620,096 (2023: \$1,711,454) in a share based payment expense for options and RSUs granted and vested during the year ended November 30, 2024.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

7. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, lease liabilities, debt, accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

The carrying value of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these instruments. Debt balances and lease liabilities approximate their fair value as they are recognized using the effective interest rate method.

The Company discloses the inputs used in making fair value measurements, including their classification within a hierarchy that prioritizes their significance. The three levels of inputs are: Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities; Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and Level 3 – inputs that are not based on observable market data.

Financial instruments measured at fair value on the statement of financial position are summarized in levels of fair value hierarchy as follows:

Assets	Level 1	Level 2	Level 3	Total
Cash	\$18,381,791	-	-	\$18,381,791
Cash equivalents	\$10,008,459	-	-	\$10,008,459
Cash and cash equivalents	\$28,390,250	-	-	\$28,390,250

The Company had \$nil cash and cash equivalents as at November 30, 2023.

The Company has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. Management, the Board of Directors and the Audit Committee monitor risk management activities and review the adequacy of such activities.

(a) Credit risk

Credit risk is the risk of a financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's cash is primarily held in large Canadian financial institutions. The Company does not have any asset-backed commercial paper. The Company's receivables primarily consist of government sales tax receivable due from the Federal Government of Canada. Management believes that the credit risk concentration with respect to financial instruments included in receivables is minimal.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

7. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

(cont'd...)

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. The Company is exposed to liquidity risk but believes the Company has the requisite financial resources to continue its operations for the next twelve months (Note 2).

(c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as foreign exchange rates, interest rates, and commodity and equity prices.

- (i) Cash held in foreign currencies other than the Canadian dollar is subject to currency risk. The Company is exposed to currency risk by incurring certain expenditures in currencies other than the Canadian dollar. The Company also uses foreign currency contracts to manage its expected foreign operating cash flows and foreign exchange forward contracts to manage foreign exchange exposure on foreign-denominated debt.

A 10% change in all exchange rates versus the Canadian Dollar would result in a \$6,013 change in net assets.

- (ii) Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest-bearing financial instruments are comprised of cash which bears interest at variable rates and debt, which incurs interest at fixed rates. The Company considers its interest rate risk as minimal and insignificant.

WESTBRIDGE RENEWABLE ENERGY CORP.

Notes to the Consolidated Financial Statements

(Expressed in Canadian Dollars)

For the year ended November 30, 2024

7. FINANCIAL INSTRUMENTS, MANAGEMENT OF CAPITAL AND FINANCIAL RISK

(cont'd...)

Capital Management

The Company's objectives when managing capital are:

- to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through public and/or private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements. There have been no changes to the Company's approach to capital management for the periods presented.

8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Development project assets relate to costs incurred in the development of the solar photovoltaic plants, which meet the recognition criteria following the acquisition of the projects.

Development projects are depreciated over the useful life of the resulting asset, from the date of first export of electricity.

Contingent consideration arrangements exist for the Accalia and Sunnynook projects which require specific milestones to be met in respect of the development of the projects. Payment of any contingent consideration is at the sole discretion of the Company and during the year ended November 30, 2023, additional contingent consideration of \$300,328 and \$85,000 for Accalia and Sunnynook respectively, was recognised as additions to Development projects. During the year ended November 30, 2024, additional contingent consideration of \$309,512 was recognised as additions to Development Projects for Accalia.

On December 5, 2022, Georgetown entered into a loan agreement with LRC Westbridge Investco, LLC, a lending entity established by Leyline Renewable Capital, LLC. Under this loan agreement, Georgetown may borrow up to a maximum of the US Dollar equivalent of \$4,830,000. The loan was fully drawn on the execution date. The loan is secured by a first priority security interest against the assets of Georgetown, bears interest at 12% per annum, is subject to a 2% origination fee, and matures 12 months from the date of the loan agreement. This facility was settled in full on December 13, 2023, resulting in a payment of \$5,811,804 settling debt included in liabilities held for sale (Note 14).

Effective May 23, 2023, Westbridge Renewable Energy Holdco Corp (“WEBH”) entered into a loan agreement with LRC Westbridge II Investco, LLC, a lending entity established by its manager Leyline Renewable Capital, LLC. Under this loan agreement, WEBH may borrow up to a maximum of USD 23,000,000. At November 30, 2023, the Company had drawn \$27,300,000 plus costs incurred and capitalized. The loan is secured by a first priority security interest against the shares held in Sunnynook, Dolcy, Eastervale, and Red Willow. The loan bears interest at 12% per annum, is subject to a 2% origination fee and matures 18 months from the date of the loan agreement. On January 31, 2024, the Company made repayments totalling \$6,654,498 against this facility. On November 1, 2024, in conjunction with the sale of Sunnynook, this facility was settled in full, resulting in a repayment of \$31,300,592.

Effective May 23, 2023, the Company entered into a loan agreement with LRC Westbridge III Investco, LLC, a lending entity established by its manager Leyline Renewable Capital, LLC. Under this loan agreement, the Company may borrow up to a maximum of USD 4,900,000. At November 30, 2023, the Company had drawn US\$1,388,590 against this loan. The loan is secured by a first priority security interest against the shares held in Westbridge Energy (U.S.) Corp, and a second priority security interest against the shares held in Sunnynook, Dolcy, Eastervale and Red Willow. The loan bears interest at 12% per annum, is subject to a 2% origination fee and matures 18 months from the date of the loan agreement. This facility was settled in full on December 13, 2023, resulting in a payment of \$2,708,184.

Derivative financial asset

The Company entered into foreign exchange forward contracts covering approximately US\$20.7M commencing July 2023 against the debt with LRC Westbridge II Investco, LLC. As at November 30, 2024, the fair value of the derivative financial asset based on the unrealized foreign exchange contract was \$nil (2023 - \$217,818) due to all amounts having been settled in the year.

On June 1, 2023, the Company announced that it had reached definitive agreements to sell five of its Canadian projects, by way of share purchase transactions for each project SPV, to Metka, for a total cash consideration of between \$217 million and \$346 million. Closing of the purchase and sale of each SPV is conditional upon, among other things: obtaining approval of the purchase and sale by the TSXV, as applicable, and obtaining regulatory approvals from the AUC.

As a result of these definitive agreements, the Company received deposits relating to the sales totalling \$6,589,500. These deposits are repayable with an effective interest rate of 15% per annum in the event that any of the projects covered by these agreements does not meet the conditions for closing. During the year ended November 30, 2024, \$2,629,500 was recognised as a gain on disposal on the completion of the sales of Georgetown and Sunnynook.

At November 30, 2023, the assets and liabilities of Georgetown and Sunnynook met the definition of disposal groups under IFRS 5 “Non-Current Assets Held for Sale and Discontinued Operations” as the closing of the sale of those assets was expected to occur within twelve months.

At November 30, 2024, it is uncertain whether any of the other SPVs will be sold within twelve months and accordingly none are classified as held for sale.

15. ACQUISITION OF SUBSIDIARIES

Willard Solar Holdings Inc

On November 14, 2023, the Company acquired a solar development company Willard Solar Holdings Inc and its 100% subsidiary Willard Renewable LLC which hold the development project Autrey Solar located in Willard County, New Mexico, U.S. (the “Autrey Project”). The project was acquired from VDA Solar Limited (“VDA”), a related party due to a common director. The project assets are owned by Willard Renewable LLC. Westbridge acquired 100% of the issued shares in Willard Solar Holdings under a share purchase agreement.

Under IFRS 3 “Business Combinations”, Willard Solar Holdings does not meet the definition of a business as the gross assets are concentrated within a single class of assets, being the Accalia Project. As such it is accounted for as an asset acquisition.

The amounts recognised in respect of the identifiable assets acquired and liabilities assumed are set out in the table below.

Net assets (liabilities) received:		
Development project	\$	828,905
Right of use asset (net) (note 11)		63,024
Accrued liabilities		(33,966)
Loans		(631,096)
Lease liability		(29,058)
Total	\$	197,809
Satisfied by		
Cash	\$	197,809

No further consideration is payable on this acquisition.

Gierre Solare s.r.l.

On October 20, 2023, the Company acquired a 70% controlling interest in Gierre Solare srl. (“Gierre”) which is developing a 32MWp solar photovoltaic system located in Lazio, Italy.

Under IFRS 3 “Business Combinations”, Gierre does not meet the definition of a business as the gross assets are concentrated within a single class of assets, being the Gierre Project. As such it is accounted for as an asset acquisition.

The amounts recognised in respect of the identifiable assets acquired and liabilities assumed are set out in the table below.

18. DIVIDENDS

On May 29, 2024, the Company announced a special dividend of \$0.10 per share classified as a return of capital to shareholders. The record date for the dividend was June 7, 2024, and \$10,165,434 was distributed to shareholders.

19. SUBSEQUENT EVENTS

The Company granted options to purchase 930,000 Common Shares of the Company to management and directors of the Company on January 14, 2025. The Options are exercisable at a price of \$0.85 per Common Share, have a life of three years, and vest within one year from the date of grant.

The Company also granted Restricted Stock Units ("RSUs") and Performance Stock Units ("PSUs") representing the right to receive up to an aggregate 3,720,000 Common Shares to management and directors of the Company, subject to the satisfaction of certain vesting conditions.

On February 24, 2025, the Company granted RSUs representing the right to receive up to an aggregate 400,000 Common Shares to consultants, subject to the satisfaction of certain vesting conditions.

On March 18, 2024, the Company announced that the TSX Venture Exchange approved the Company to repurchase for cancellation, up to 4,962,722 common shares in its own capital stock, representing approximately 5% of the Company's issued and outstanding shares, through a Normal Course Issuer Bid ("NCIB"). The purchases are to be made through the facilities of TSX Venture Exchange during the period of March 21, 2024, to March 20, 2025, or on an earlier date in the event the maximum number of shares sought in the NCIB has been repurchased. In the period since November 30, 2024, 65,000 shares have been repurchased for cash consideration of \$51,960 and subsequently cancelled.
